

Terraces 6th floor COVID-19 Outbreak

Final Control Measures

CASE DEFINITION

Any client with lab confirmation of COVID-19 or staff with RAT or PCR confirmation of COVID-19.

SURVEILLANCE

1. Test new clients presenting with any one symptom compatible with COVID-19;
2. Initiate daily active surveillance for clients (IPAC) and staff (OHS) on the affected unit;

SIGNAGE AND ADDITIONAL PRECAUTIONS

3. Place suspected/confirmed cases on Special Droplet/Contact Precautions with signage on the doors;
4. Post outbreak signage on unit entrance doors & keep them shut for the duration of the outbreak;
5. Post a printed copy of the Control Measures at the nursing station;
6. Use 'clustered care' and keep entries into the rooms of suspected/confirmed cases to a minimum;

ACCOMMODATION, COHORTING & ROOM RESTRICTIONS

7. Place confirmed cases into private rooms, whenever available/practical/feasible;
8. Cohort confirmed cases, when necessary/practical/feasible;
9. Restrict suspected/confirmed cases to their rooms for the duration of Special Precautions;
10. Use dedicated mobile equipment in the rooms of confirmed/suspected cases, when possible;
11. Disinfect mobile equipment that cannot be dedicated, using disinfectant wipes;

APPOINTMENTS, LEAVES OF ABSENCE & GROUP ACTIVITIES

12. Determine whether clients' medical appointments should be kept, at the discretion of MRPs;
13. Schedule appointments end of day, if possible. Notify transport personnel and the receiving facility;
14. Suspend community leaves of absence for the duration of outbreak;
15. Cohort clients for recreational group activities and close client gathering spaces (e.g. TV lounge);

ADMISSIONS, RE-ADMISSIONS AND TRANSFERS

16. Permit new admissions to the affected unit only in consultation with IPAC;
17. Permit early client discharges and repatriations to homes in the community;
18. Coordinate inter-facility transfers with Toronto Public Health. Notify the receiving facility;

STAFF, PRIVATE & ESSENTIAL CAREGIVERS, STUDENTS, VOLUNTEERS, AND VISITORS

19. Restrict confirmed/suspected staff/caregiver/etc. cases from the unit until cleared by OHS/TPH;
20. Permit healthy staff to work between affected and unaffected units;
21. Permit students to work on the affected unit and with confirmed/suspected cases;
22. Restrict general visitors and volunteers from working on the affected unit;
23. Permit essential caregivers on the unit, including for confirmed/suspected client cases;
24. Restrict essential caregivers from working on other unaffected units;

ENVIRONMENTAL SERVICES

25. Perform daily enhanced cleaning/disinfection in the rooms of confirmed/suspected cases;
26. Perform a 2-stage terminal cleaning upon discontinuation of precautions;
